

Dangerous Street Drugs 2026-7

Dangerous Street Drugs are plaguing every community, every town and city, and rapidly spreading to every corner of the US. They come in all forms and are constantly being synthesized and combined with other dangerous substances. Some of these drugs are so potent that they can be dangerous to the touch and must be handled with extreme caution. "Street Valium", "Cyco", "ISO", "Pink Cocaine", "Black Cocaine", "Gas Station Heroin" and many, many other drugs can be found in schools, jails, streets, and homes. And **what substances are more potent than Fentanyl and Narcan won't work** on someone who overdosed. This course will expose many Dangerous Drugs, **emerging drugs, drug trends, counterfeit drugs, and drugs** that are constantly modified to stay under the radar of the law.
